AKPÉ MOTION
New album 2019 : « Migrations 2 »

This is the story of an encounter as it often exists among musicians.
A desire to share colors, shapes, dialogue, to confront, to cross paths.
It is the fruit of programmed wanderings, fruitful wanderings around the real and imaginary world. A sort of invitation to a world citizen's trip, perhaps more than others, sensitive to the migrations of our time.

Migrations 2 a testimony of solidarity an attempt to open our imagination towards a resolutely positive vision of the world and humanity

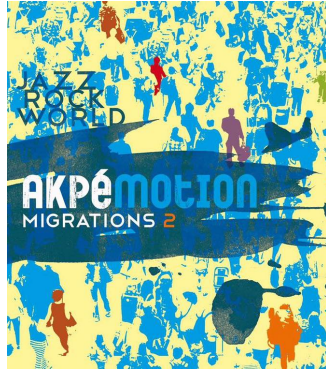

Album "Migrations 2" was released on May 15, 2019

New album « Migrations 2 »

"I was captivated from one end of the concert to the other, so much so that the band has the art to keep us awake. It is at the same time a raw energy and a kaleidoscopic, impressionistic music, made of nuances, fine details, suspenseful melodies, echoes, calls to the trance. Each artist is generous and gives himself fully. I liked their authenticity. She is born from this common project, to reach the public and take her into her modal world where sounds and words resound.
